

TAIWAN JOURNAL OF FOREST SCIENCE

CONTENTS OF VOLUME 32

Number 1, March 2017

Research papers

Chang LW, Chen YT, Hwong JL.	Damage and Regeneration of Trees in the Liehuachih Forest Dynamics Plot in Central Taiwan after Typhoons Disturbance	1
Wang DH, Hsieh HC, Chiang YJ, Yang PH, Chen TH, Wu CS.	Integration of Geographic Information with 3D Visualization Technologies for Dynamic Simulations of Forest Trail Landscapes	15
Chiu CM, Tang SL, Peng PH, Chiang HL.	Effects of Thinning and Pruning on the Growth of Naturally Regenerated Yellow Cypress (<i>Chamaecyparis obtusa</i> var. <i>formosana</i>) Stands	31
Hwang GS, Lee CM, Ho CL, Wang CH, Yu HM.	Study of Charcoal Making with <i>Michelia compressa</i> Thinned Wood from Afforestation on the Plains	43
Huang SY, Chien CT, Wang MW, Kou-Huang LL, Chen SY.	Physical Dormancy in Seeds of Three Native Woody Species in Taiwan: <i>Rhus succedanea</i> (Anacardiaceae), <i>Thespesia populnea</i>	57
<u>Review article</u>		
Chen YJ, Chang ST.	Distribution and Characteristic Comparisons of the Endemic cypresses in Taiwan	71

Number 2, June 2017

Research papers

Tavankar F, Bonyad A.	Characteristics and Occlusion of Logging Wounds in <i>Fagus orientalis</i> Lipsky	87
Chang TP, Hung CH, Wu YT, Lin LC.	Using a PCR-DGGE Method to Analyze iazotrophic Diversity in Soil and Root Nodules of <i>Casuarina</i> in the Sihou Area	101
Lu SY.	Estimation of the Ability of a Forest Watershed to Conserve and Regulate Water by a Baseflow Approach	111
Martin CE.	Plant Functional Traits: an Ecophysiological Perspective	121
Kuo YL, Yang Ypi, Peng SH.	Variations in the Predawn Leaf Water Potential and Photosynthetic Rate during the Dry Season and Drought-Tolerance Mechanisms of Coastal Tree Species	131
Deng SL, Fu CH, Chang KC, Yang CJ, Huang CY.	Population Genetic Variations of <i>Calophyllum inophyllum</i> in Taiwan and on Nearby Islands	145
Hsieh HC, Lin CY, Wang DH, Chung CH, Huang CY.	Comparison of FORMOSAT-2 SAVI and GLA LAI in Estimating Stand Volume of Fraxinus Afforestation	159

Number 3, September 2017

Research papers

Lin JC, Lin SH, Pan WR, Lai CY, Lin YJ.	The Predicaments of and Revitalizing Strategies for Nantou County's Zhushan Bamboo Industry	177
Lin JC, Chen YH, Wang PJ, Chen SJ, Wu MS.	An Estimation of Carbon Emissions by Taiwan's Major Imported Solid Wood Products	191
Hsieh HC, Chung CH, Huang CY.	Using the NDVI and Mean Shift Segmentation to Extract Landslide Areas in the Lioukuei Experimental Forest Region with Multi-temporal FORMOSAT-2 Images	203

Zhao H, Wang QR, Song GH.	Tree Species Composition and Environmental Gradient Analysis of a Natural Secondary Forest on Southern Taihang Mountain	223
Lin MF, Su SH, Huang LW, Chen CW, Jeng MR, Wang HH.	Tree Leaf Choice by Formosan Reeve's Muntjac in Relation to Nutrient Content	237
<u>Research note</u>		
Jeng MR, Chen CW, Yeh GF, Hsieh CC, Chen YC, Chang LW.	Observations of the phenology of <i>Mitrastemon kanehirai</i> and animals that visited it during the reproductive season with a network camera	251
Duh CT, Huang CM.	Recovery Rate of Organic Carbon by the Walkley-Black Procedure—Non-calcareous Taiwan Forest Soils as Examples	259
Number 4, December 2017		
<u>Research papers</u>		
Yang JC, Kuo SR.	Germination and Storage Behavior of Seeds of <i>Camellia brevistyla</i> (Hay.) Coh-Stuart	267
Chang SH, Chen FH, Chen YC.	Induction, Culture, and Taxane Production of Crown Galls and Hairy Roots of <i>Taxus sumatrana</i> (Miq) de Laub	283
Chen MH, Lin YJ.	Integrating Co-management and the Satoyama Initiative for Forest Governance: Community-Based Ecotourism and Conservation of Adiri and Labuwan	299
Chen MH, Lin YJ, Liao JY, Lee LH.	Important Bridges for Implementing Socio-Ecological Management in the Adiri Community of Pingtung, Taiwan after Typhoon Morakot	317
Chang CW, Lu KT.	Synthesis and Characterization of Castor Oil-Based UV-Curable Water-Reducible Polyurethane Dispersions for Wood Coatings	333
Lin YJ, Yao SJ, Pan WR, Lin PH.	An Investigation of Woody Wastes of the Wood Processing Industry in Yilan County and Its Reuse Assessment	349
